Printing date 21.04.2024 Version number: RO/ 5 (replaces version 4) Revision: 21.04.2024

# SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### **Product identifier**

#### Trade name:

## SEPTOBUD 1008

Biocide

## Unique Formula Identifier (UFI-Code):

HX2A-10N7-H008-YTRT

## REACH Registration number (EC 1907/2006):

Not subject to registration in accordance with EC 1907/2006 Annex V (point 7) or Article 2.

## Relevant identified uses of the substance or mixture and uses advised against

## Life cycle stages

PW Widespread use by professional workers

#### **Sector of Use**

SU19 Building and construction work

#### Product category

PC8 Biocidal products

#### **Process category**

PROC19 Manual activities involving hand contact

#### **Environmental release category**

ERC10a / ERC11a Widespread use of articles with low release

## **Article category**

AC0 Other

## Application of the substance / the preparation

Biocidal product - Mixture for industrial and technical use for the removal of microorganisms on surfaces of buildings. The use for other purposes is not recommended.

## Details of the supplier of the safety data sheet

## Manufacturer/Supplier:

KREISEL - Technika Budowlana Sp. z o.o. ul. Szarych Szeregów 23 60-462 Poznań Poland

Tel. +48 61 846 79 00 Fax +48 61 846 79 09 sekretariat@kreisel.pl www.kreisel.pl

#### Further information obtainable from:

Bartosz Polaczyk - Tel.: +48 510 022 908, +48 61 84 67 966, bartosz.polaczyk@kreisel.pl On working days 8 a.m. - 4 p.m.

## **Emergency telephone number**

National poisons information centre: +44/(0)171 - 635 9191

National Health Service: 111 European emergency call: 112

Version number: RO/ 5 (replaces version 4)

Revision: 21.04.2024

according to Regulation (EC) No 1907/2006, Article 31

SEPTOBUD 1008

Printing date 21.04.2024

(Contd. of page 1)

## **SECTION 2: Hazards identification**

#### Classification of the substance or mixture

Skin Sens. 1 H317 May cause an allergic skin reaction.

Aguatic Chronic 3 H412 Harmful to aquatic life with long lasting effects.

#### Label elements

#### **GHS** label elements

The product is classified and labelled according to the Globally Harmonised System (GHS).

## **Hazard pictograms**

GHS07

## Signal word

Warning

#### Hazard-determining components of labelling:

2-Octyl-2H-isothiazol-3-one

#### **Hazard statements**

H317 May cause an allergic skin reaction.

H412 Harmful to aquatic life with long lasting effects.

## **Precautionary statements**

P102 Keep out of reach of children.

P103 Read carefully and follow all instructions.

P261 Avoid breathing spray.

P280 Wear protective gloves/protective clothing/eye protection/face protection/hearing

protection.

P273 Avoid release to the environment.

P302+P352 IF ON SKIN: Wash with plenty of soap and water.

P333+P313 If skin irritation or rash occurs: Get medical advice/attention. P362+P364 Take off contaminated clothing and wash it before reuse.

P501 Dispose of contents/container in keeping with local and national regulations.

#### Other hazards

No further relevant information available.

## Results of PBT and vPvB assessment

**PBT:** Not applicable. **vPvB:** Not applicable.

## SECTION 3: Composition/information on ingredients

#### **Chemical characterization: Substances**

This product is a mixture.

## **Mixtures**

## Description:

Microbiocide based on benzalkonium chloride and octylisothiazolone Microbiocide based on alkonium chloride and octylisothiazolone

(Contd. on page 3)

#### Additional information:

For the wording of the listed hazard phrases refer to section 16.

## **SECTION 4: First aid measures**

#### Description of first aid measures

First aid

## General information:

For first responder no special personal protective equipment is required. First responder should avoid contact with the product.

## After inhalation:

Take affected persons into fresh air and keep quiet. Seek medical treatment in case of complaints. In case of irregular breathing or respiratory arrest provide artificial respiration. In case of unconsciousness place patient stably in side position for transportation.

## After skin contact:

Immediately wash with water and soap and rinse thoroughly. Immediately remove all soiled and contaminated clothing. Wash contaminated clothes before reuse. Clean contaminated shoes before reuse. If skin irritation continues, consult a doctor.

#### After eye contact:

Do not rub eyes because additional damage to eyes can be caused by mechanical stress. If necessary, remove contact lenses and flush the eye immediately while holding eyelids open to water for at least 20 minutes. If possible, isotonic eyewash solution (e. g. 0,9% NaCl). Always consult an occupational physician or ophthalmologist.

## After swallowing:

Do not induce vomiting. If conscious rinse mouth with water and drink plenty of water. Consult a physician or poison control center.

## Most important symptoms and effects, both acute and delayed

Symptoms and effects are described in section 2 and 11.

(Contd. on page 4)

<sup>&</sup>lt;sup>1</sup> Not subject to registration in accordance with EC 1907/2006 Annex V (point 7) or Article 2.

Version number: RO/ 5 (replaces version 4) Printing date 21.04.2024 Revision: 21.04.2024

#### SEPTOBUD 1008

(Contd. of page 3)

#### Hazards:

No further relevant information available.

## Indication of any immediate medical attention and special treatment needed

If a physician is to be consulted, as per possibillity he should be presented this safety data sheet.

## SECTION 5: Firefighting measures

#### Extinguishing media

The mixture is flammable neither in the delivery condition not in mixed conditions. Extinguisher and fire fighting are therefore adjusted to the surrounding fire.

## Suitable extinguishing agents:

The mixture is flammable neither in the delivery condition not in mixed conditions. Extinguisher and fire fighting are therefore adjusted to the surrounding fire.

## For safety reasons unsuitable extinguishing agents:

None

## Special hazards arising from the substance or mixture

This product is neither explosive nor flammable, and non-oxidizing with other materials. Particular danger of slipping on leaked/spilled product.

## Advice for firefighters

No special measures required. Collect contaminated fire fighting water separately. It must not enter the sewage system. Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.

## SECTION 6: Accidental release measures

## Personal precautions, protective equipment and emergency procedures

If appropriate, reference must be made to exposure controls and personal protection (see section

## **Environmental precautions**

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

## Methods and material for containment and cleaning up

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose of the material collected according to regulations.

#### Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

## SECTION 7: Handling and storage

#### Precautions for safe handling:

Ensure good ventilation/exhaustion at the workplace. Avoid contact with the eyes and skin. Wear protective clothing. Washing facilities / Water for cleaning yes and skin should be available. Persons, who tend to skin diseases or other hypersensitivity reactions of the skin, should not handle the product. Do not eat, drink, smoke or sniff while working.

## Information about fire - and explosion protection:

No special measures required.

(Contd. on page 5)

# according to Regulation (EC) No 1907/2006, Article 31

#### SEPTOBUD 1008

(Contd. of page 4)

## Conditions for safe storage, including any incompatibilities

### Storage:

## Requirements to be met by storerooms and receptacles:

Keep out of reach of children. Store in cool, dry place in tightly closed receptacles.

## Information about storage in one common storage facility:

Keep away from foodstuffs, beverages and feed.

## Further information about storage conditions:

Protect from frost. Protect from heat and direct sunlight.

## Miniumum storage life:

Minimum storage life (+5°C up to 25°C): See indication on package.

Storage class: 12 Specific end use(s)

No further relevant information available.

## SECTION 8: Exposure controls/personal protection

#### **Control parameters**

## Ingredients with limit values that require monitoring at the workplace:

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

# Safety data sheet according to Regulation (EC) No 1907/2006, Article 31

Printing date 21.04.2024 Version number: RO/ 5 (replaces version 4) Revision: 21.04.2024

#### SEPTOBUD 1008

(Contd. of page 5)

#### **Exposure controls**

## Individual protection measures, such as personal protective equipment

#### General protective and hygienic measures:

Keep away from foodstuffs, beverages and feed. Remove contaminated clothing immediately and thoroughly clean it before using it again. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin. Do not eat, drink, smoke or sniff while working. Use skin protection cream for skin protection. Ensure that washing facilities are available at the work place.

## Respiratory protection:

Use suitable respiratory protective device only when aerosol or mist is formed (FFP2 according to EN 149)

## Hand protection:

Hand protection: Chemical resistant protective gloves according EN ISO 374

The glove material has to be impermeable and resistant to the product. Due to missing tests no recommendation to the glove material can be given for the product. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation. Check protective gloves prior to each use for their proper condition. Preventive skin protection by use of skin-protecting agents is recommended. To avoid skin problems reduce the wearing of gloves to the required minimum.

#### Material of gloves:

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

## Penetration time of glove material:

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

## For the permanent contact gloves made of the following materials are suitable:

Polychloroprene (material thickness  $\geq 0.5$  mm; breakthrough time  $\geq 480$  min.) Nitrile rubber (material thickness  $\geq 0.35$  mm; breakthrough time  $\geq 480$  min.) Butyl rubber (material thickness  $\geq 0.5$  mm; breakthrough time  $\geq 480$  min.) Fluororubber (material thickness  $\geq 0.4$  mm; breakthrough time  $\geq 480$  min.) Neoprene (material thickness  $\geq 0.5$  mm; breakthrough time  $\geq 480$  min.)

## Not suitable are gloves made of the following materials:

Non-liquid-tight gloves made of fabric, leather or similar materials.

#### **Eve/face protection:**

In case of splash risk use tightly fitting safety goggles according to EN 166.

## **Body protection:**

Protective work clothing

## according to Regulation (EC) No 1907/2006, Article 31

Printing date 21.04.2024 Version number: RO/ 5 (replaces version 4) Revision: 21.04.2024

#### SEPTOBUD 1008

(Contd. of page 6)

## Risk management measures:

An operator training/guidance in the correct use of personal protective equipment is necessary to ensure the required level of effectiveness.

## Information about design of technical facilities

No further data; see item 7.

## **Environmental exposure controls**

Avoid release in the environment. Use the surplus or dispose it of properly.

# SECTION 9: Physical and chemical properties

Information on basic physical and chemical properties

**General Information** 

Physical state Fluid

Appearance:

Form: Fluid
Colour: Colourless
Odour: Odourless

Odour threshold: Not safety relevant

**pH at 20 °C (68 °F)** 4 - 5

Change in condition

Melting point/freezing point: ~ 0 °C (~ 32 °F) (ISO 3016)

Boiling point or initial boiling point and

boiling range 100 °C (212 °F)

**Flammability** Product is not flammable.

Flash point: Not applicable
Decomposition temperature: Not determined

Oxidising properties: None

**Explosive properties:** Product does not present an explosion hazard.

Lower and upper explosion limit

Lower: Not determined Upper: Not determined

**Ignition temperature:** Product is not selfigniting. **Vapour pressure at 20 °C (68 °F):** 23 hPa (17.3 mm Hg)

Density and/or relative density

**Density at 20 °C (68 °F):** 1 - 1.05 g/cm<sup>3</sup> (8.35 - 8.76 lbs/gal)

Particle size

Viscosity:

**Dynamic at 20 °C (68 °F):** < 100 mPas (DIN 53019)

## SECTION 10: Stability and reactivity

## Reactivity

No dangerous reactions known.

## **Chemical stability:**

The product is stable as long as it is stored properly and dry.

## Thermal decomposition / conditions to be avoided:

No decomposition if used according to specifications.

## Possibility of hazardous reactions

No dangerous reactions known.

## Conditions to avoid

No further relevant information available.

## Incompatible materials

No further relevant information available.

#### Hazardous decomposition products

No dangerous decomposition products known.

## Miniumum storage life:

Minimum storage life (+5°C up to 25°C): See indication on package.

#### Additional information:

No further relevant information available.

## **SECTION 11: Toxicological information**

## Information on hazard classes as defined in Regulation (EC) No 1272/2008

The product was not investigated. The statement is derivated from the properties of the single components.

## Acute toxicity:

Based on available data, the classification criteria are not met.

LD/LC50	LD/LC50 values relevant for classification:

## Additional ecological information:

According to the formulation contains the following heavy metals and compounds from the EU guideline NO. 2006/11/EC:

None

#### **General notes:**

Water hazard class 2 (German Regulation) (Self-assessment): hazardous for water Do not allow product to reach ground water, water course or sewage system. Danger to drinking water if even small quantities leak into the ground.

## SECTION 13: Disposal considerations

#### Waste treatment methods

#### Recommendation:

Must not be disposed together with household garbage. Do not allow product to reach sewage system.

Risk of environmental pollution. Follow the applicable regulations on waste disposal. Keep unused products and contaminated packaging sealed. Provide containers for waste collection. Hand over for disposal to a specialist company authorised to carry out such activities. Prevent the product from being released into the environment. Do not allow the product to enter the sewage system. Must not be disposed of with municipal waste. Empty containers can be utilised for energy recovery in a waste incineration plant or, if classified accordingly, collected at a landfill site. Perfectly cleaned packaging can be recycled.

Dispose of contents/container in accordance with local/regional/national/international regulations.

## Named dangerous substances - ANNEX I:

None of the ingredients is listed.

## National regulations:

## Information about limitation of use:

Employment restrictions concerning juveniles must be observed.

Employment restrictions concerning pregnant and lactating women must be observed.

## Biozide ingredients (528/2012/EG):

Data based on recipe and information on the raw materials from the supply chain.

	Didecyldimethylammonium chloride	≥ 0.25 - < 0.5%
ĺ	2-Octyl-2H-isothiazol-3-one	≥ 0.025 - < 0.1%

#### Classification according 2004/42/EG: Not applicable.

#### Other regulations, limitations and prohibitive regulations:

- Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (UK REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/ EC and 2000/21/EC
- ·Commission Regulation (EU) 2020/878 of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (UK REACH)
- ·Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006
- ·Regulation (EC) 1013/2006 on shipments of waste

#### Chemical safety assessment

A Chemical Safety Assessment has not been carried out.

## **SECTION 16: Other information**

## Reasons for changes:

\* Data compared to the previous version altered.

#### Relevant phrases:

H301 Toxic if swallowed.

H302 Harmful if swallowed.

H311 Toxic in contact with skin.

H314 Causes severe skin burns and eye damage.

H317 May cause an allergic skin reaction.

H318 Causes serious eye damage.

H330 Fatal if inhaled.

H400 Very toxic to aquatic life.

H410 Very toxic to aquatic life with long lasting effects.

EUH071 Corrosive to the respiratory tract.

(Contd. on page 14)

Version number: RO/ 5 (replaces version 4) Printing date 21.04.2024 Revision: 21.04.2024

#### SEPTOBUD 1008

(Contd. of page 13)

#### Advice for instructions:

Additional trainings, which go beyond the prescribed training in activities involving hazardous substances are not required.

#### Literature and the data sources:

## **Department issuing MSDS:**

Product safety department (+43/(0)5522-41646-0 / klaus.ritter@fixit-gruppe.com)

## Abbreviations and acronyms:

RID: Règlement international concernant le transport des marchandises dangereuses par chemin de fer (Regulations Concerning the International Transport of Dangerous Goods by Rail)

ICAO: International Civil Aviation Organisation

MAK: Maximale Arbeitsplatz-Konzentration (maximum concentration of a chemical substance in the workplace, Austria/ Germany)

PBT: persistent, bioaccumulative and toxic properties

vPvB: very persistent, bioaccumulatice properties

ADR: Accord relatif au transport international des marchandises dangereuses par route (European Agreement Concerning

the International Carriage of Dangerous Goods by Road)

IMDG: International Maritime Code for Dangerous Goods

IATA: International Air Transport Association

EINECS: European Inventory of Existing Commercial Chemical Substances

ELINCS: European List of Notified Chemical Substances

CAS: Chemical Abstracts Service (division of the American Chemical Society)

VOC: Volatile Organic Compounds (USA, EU) DNEL: Derived No-Effect Level (UK REACH)

PNEC: Predicted No-Effect Concentration (ÚK REACH)

LC50: Lethal concentration, 50 percent

LD50: Lethal dose, 50 percent

PBT: Persistent, Bioaccumulative and Toxic

vPvB: very Persistent and very Bioaccumulative

ATE: Acute toxicity estimate values

Acute Tox. 3: Acute toxicity - Category 3

Acute Tox. 4: Acute toxicity - Category 4

Acute Tox. 2: Acute toxicity - Category 2

Skin Corr. 1: Skin corrosion/irritation - Category 1

Skin Corr. 1B: Skin corrosion/irritation - Category 1B

Eye Dam. 1: Serious eye damage/eye irritation - Category 1

Skin Sens. 1: Skin sensitisation - Category 1

Skin Sens. 1A: Skin sensitisation - Category 1A

Aquatic Acute 1: Hazardous to the aquatic environment - acute aquatic hazard - Category 1

Aquatic Chronic 1: Hazardous to the aquatic environment - long-term aquatic hazard - Category 1

Aquatic Chronic 3: Hazardous to the aquatic environment - long-term aquatic hazard - Category 3

#### Further information:

The information in this safety data sheet describe the safety requirements of our product and is based on our current state of our knowledge. They provide no assurance of product quality. Existing laws, ordinances and regulations, including those that are not mentioned in this data sheet must be observed by the recipient of our products in their own responsibility.
