

SECTION 1: Identification of the substance/mixture and of the company/undertaking

Product identifier**Trade name:**

DYSPERBITUM 830

Dispersion bitumen-rubber mass

Relevant identified uses of the substance or mixture and uses advised against**Life cycle stages**

C/PW Consumer use / Widespread use by professional workers

Sector of Use

SU19 Building and construction work

Product category

PC9a Coatings and paints, thinners, paint removers

Environmental release category

ERC10a / ERC11a Widespread use of articles with low release

Article category

AC0 Other

Application of the substance / the preparation

Coating material - Product for an industrial, technical and private use for coating building surfaces. For all other uses is advised against/ not recommended.

Details of the supplier of the safety data sheet

Please comply with the information given under "Other Information" in section 16.

Manufacturer/Supplier:

KREISEL - Technika Budowlana Sp. z o.o.
ul. Szarych Szeregów 23
60-462 Poznań
Poland

Tel. +48 61 846 79 00

Fax +48 61 846 79 09

sekretariat@kreisel.pl

www.kreisel.pl

Further information obtainable from:

Bartosz Polaczyk - Tel.: +48 510 022 908, +48 61 84 67 966, bartosz.polaczyk@kreisel.pl

On working days 8 a.m. - 4 p.m.

Emergency telephone number

National poisons information centre: +44/(0)171 - 635 9191

National Health Service: 111

European emergency call: 112

SECTION 2: Hazards identification

Classification of the substance or mixture

The product is not classified, according to the Globally Harmonised System (GHS).

(Contd. on page 2)

DYSPERBITUM 830

(Contd. of page 1)

Label elements**GHS label elements** Void**Hazard pictograms**

Void

Signal word

Void

Hazard statements

Void

Precautionary statements

Observe the general safety regulations when handling chemicals.

P280 Wear protective gloves/protective clothing/eye protection/face protection/hearing protection.

P302+P352 IF ON SKIN: Wash with plenty of soap and water.

Other hazards

No further relevant information available.

Results of PBT and vPvB assessment**PBT:** Not applicable.**vPvB:** Not applicable.**SECTION 3: Composition/information on ingredients****Chemical characterization: Substances**

This product is a mixture.

Mixtures**Description:**

The asphalt-rubber dispersion mass contains: asphalt, mineral filler, latex and water.

Dangerous components:

| | |
|--|---------|
| CAS: 8052-42-4 EINECS: 232-490-9 REACH: 01-2119480172-44 | Bitumen |
|--|---------|

Other components (>20%):

| | | |
|--|-------------------------|----------|
| CAS: 7732-18-5 EINECS: 231-791-2 REACH: ¹ | Water | 25 - 50% |
| REACH: ³ | Fillers (not dangerous) | |
| Polymer REACH: ¹ | Rubber polymers / latex | |

Additional information:

For the wording of the listed hazard phrases refer to section 16.

¹ Not subject to registration in accordance with EC 1907/2006 Annex V (point 7) or Article 2.³ The identity of this substance or substances is a trade secret and was not communicated by the supplier.

GB

DYSPERBITUM 830

(Contd. of page 2)

SECTION 4: First aid measures**Description of first aid measures**

First aid

General information:

For first responder no special personal protective equipment is required. First responder should avoid contact with the product.

After inhalation:

Take affected persons into fresh air and keep quiet. Seek medical treatment in case of complaints. In case of irregular breathing or respiratory arrest provide artificial respiration. In case of unconsciousness place patient stably in side position for transportation.

After skin contact:

Immediately wash with water and soap and rinse thoroughly. Immediately remove all soiled and contaminated clothing. Wash contaminated clothes before reuse. Clean contaminated shoes before reuse. If skin irritation continues, consult a doctor.

After eye contact:

Do not rub eyes because additional damage to eyes can be caused by mechanical stress. If necessary, remove contact lenses and flush the eye immediately while holding eyelids open to water for at least 20 minutes. If possible, isotonic eyewash solution (e. g. 0,9% NaCl). Always consult an occupational physician or ophthalmologist.

After swallowing:

Do not induce vomiting. If conscious rinse mouth with water and drink plenty of water. Consult a physician or poison control center.

Most important symptoms and effects, both acute and delayed

Symptoms and effects are described in section 2 and 11.

Indication of any immediate medical attention and special treatment needed

If a physician is to be consulted, as per possibility he should be presented this safety data sheet.

SECTION 5: Firefighting measures**Extinguishing media**

The mixture is flammable neither in the delivery condition not in mixed conditions. Extinguisher and fire fighting are therefore adjusted to the surrounding fire.

Suitable extinguishing agents:

The mixture is flammable neither in the delivery condition not in mixed conditions. Extinguisher and fire fighting are therefore adjusted to the surrounding fire.

Special hazards arising from the substance or mixture

This product is neither explosive nor flammable, and non-oxidizing with other materials. Particular danger of slipping on leaked/spilled product.

Advice for firefighters

No special measures required. Collect contaminated fire fighting water separately. It must not enter the sewage system. Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.

GB

(Contd. on page 4)

DYSERBITUM 830

(Contd. of page 3)

SECTION 6: Accidental release measures
Personal precautions, protective equipment and emergency procedures

If appropriate, reference must be made to exposure controls and personal protection (see section 8).

Environmental precautions

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

Methods and material for containment and cleaning up

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose of the material collected according to regulations.

Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

SECTION 7: Handling and storage
Precautions for safe handling:

Ensure good ventilation/exhaustion at the workplace. Avoid contact with the eyes and skin. Wear protective clothing. Washing facilities / Water for cleaning yes and skin should be available. Persons, who tend to skin diseases or other hypersensitivity reactions of the skin, should not handle the product. Do not eat, drink, smoke or sniff while working.

Information about fire - and explosion protection:

No special measures required.

Conditions for safe storage, including any incompatibilities
Storage:
Requirements to be met by storerooms and receptacles:

Keep out of reach of children. Store in cool, dry place in tightly closed receptacles.

Information about storage in one common storage facility:

Keep away from foodstuffs, beverages and feed.

Further information about storage conditions:

Protect from frost. Protect from heat and direct sunlight.

Minimum storage life:

Minimum storage life (+5°C up to 25°C): See indication on package.

Storage class: 12
Specific end use(s)

No further relevant information available.

SECTION 8: Exposure controls/personal protection
Control parameters
Ingredients with limit values that require monitoring at the workplace:
8052-42-4 Bitumen

| | |
|---------------------|--|
| WEL (Great Britain) | Short-term value: 10 mg/m ³ |
| | Long-term value: 5 mg/m ³ |

(Contd. on page 5)

DYSPERBITUM 830

(Contd. of page 4)

DNELs**8052-42-4 Bitumen**

| | | |
|------------|----------------------------|-----------------------------------|
| Inhalative | Local - Long term exposure | 0.61 mg/m ³ (Consumer) |
| | | 2.88 mg/m ³ (Employee) |

Ingredients with biological limit values:

Void

Additional information:

The lists valid during the making were used as basis.

Exposure controls**Individual protection measures, such as personal protective equipment****General protective and hygienic measures:**

Use skin protection cream for skin protection. Avoid close or long term contact with the skin. Avoid contact with the eyes. Wash hands before breaks and at the end of work. Keep away from foodstuffs, beverages and feed. Do not eat, drink, smoke or sniff while working.

Respiratory protection:

Use suitable respiratory protective device only when aerosol or mist is formed (FFP2 according to EN 149)

Hand protection:

Hand protection: Chemical resistant protective gloves according EN ISO 374

The glove material has to be impermeable and resistant to the product. Due to missing tests no recommendation to the glove material can be given for the product. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation. Check protective gloves prior to each use for their proper condition. Preventive skin protection by use of skin-protecting agents is recommended. To avoid skin problems reduce the wearing of gloves to the required minimum.

Material of gloves:

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Penetration time of glove material:

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

For the permanent contact gloves made of the following materials are suitable:

Polychloroprene (material thickness ≥ 0.5 mm ; breakthrough time ≥ 480 min.)

Nitrile rubber (material thickness ≥ 0.35 mm ; breakthrough time ≥ 480 min.)

Butyl rubber (material thickness ≥ 0.5 mm ; breakthrough time ≥ 480 min.)

Fluororubber (material thickness ≥ 0.4 mm ; breakthrough time ≥ 480 min.)

Neoprene (material thickness ≥ 0.5 mm ; breakthrough time ≥ 480 min.)

Not suitable are gloves made of the following materials:

Non-liquid-tight gloves made of fabric, leather or similar materials.

(Contd. on page 6)

DYSPERBITUM 830

(Contd. of page 5)

Eye/face protection:

In case of splash risk use tightly fitting safety goggles according to EN 166.

Body protection:

Protective work clothing

Risk management measures:

An operator training/guidance in the correct use of personal protective equipment is necessary to ensure the required level of effectiveness.

Information about design of technical facilities

No further data; see item 7.

Environmental exposure controls

Avoid release in the environment. Use the surplus or dispose it of properly.

SECTION 9: Physical and chemical properties

Information on basic physical and chemical properties**General Information****Physical state**

Fluid

Appearance:**Form:**

Pasty

Colour:

Dark brown

Odour:

Characteristic

Odour threshold:

Not safety relevant

pH at 20 °C (68 °F)

7 - 9

Saturated aqueous solution

Change in condition**Melting point/freezing point:**

0 °C (32 °F) (ISO 3016)

Boiling point or initial boiling point and boiling range

100 °C (212 °F)

Flammability

Product is not flammable.

Flash point:

Not applicable

Auto-ignition temperature:

> 250 °C (> 482 °F) (DIN 51794)

Oxidising properties:

None

Explosive properties:

Product does not present an explosion hazard.

Ignition temperature:

Product is not selfigniting.

Vapour pressure at 20 °C (68 °F):

23 hPa (17.3 mm Hg)

Density and/or relative density**Density at 20 °C (68 °F):**0.99 - 1.01 g/cm³ (8.26 - 8.43 lbs/gal)**Particle size****Solubility****Water:**

Fully miscible

SECTION 10: Stability and reactivity**Reactivity**

No dangerous reactions known.

Chemical stability:

The product is stable as long as it is stored properly and dry.

Thermal decomposition / conditions to be avoided:

No decomposition if used according to specifications.

Possibility of hazardous reactions

No dangerous reactions known.

Conditions to avoid

No further relevant information available.

Incompatible materials

No further relevant information available.

Hazardous decomposition products

No dangerous decomposition products known.

Minimum storage life:

Minimum storage life (+5°C up to 25°C): See indication on package.

Additional information:

No further relevant information available.

SECTION 11: Toxicological information**Information on hazard classes as defined in Regulation (EC) No 1272/2008**

The product was not investigated. The statement is derived from the properties of the single components.

Acute toxicity:

Based on available data, the classification criteria are not met.

LD/LC50 values relevant for classification:**8052-42-4 Bitumen**

| | | |
|------|------------------|--------------------------------|
| Oral | LD ₅₀ | > 5,000 mg/kg (Rat) (OECD 401) |
|------|------------------|--------------------------------|

(Contd. on page 8)

(Contd. of page 7)

| | | |
|------------|-----------------------|-----------------------------------|
| Dermal | LD ₅₀ | > 2,000 mg/kg (Rabbit) (OECD 402) |
| Inhalative | LC ₅₀ (4h) | > 94.4 mg/l (Rat) (OECD 403) |

Other information (about experimental toxicology):

8052-42-4 Bitumen

| | | |
|--------------------|---|--------------------------------------|
| Oral | OECD 471 (In vitro - Mutation, Ames-Test) | (Salmonella typhimurium) negative |
| Irritation of skin | OECD 404 (skin) | (Rabbit) not classified |
| Irritation of eyes | OECD 405 (eye) | (Rabbit) not irritant |
| Sensitisation | OECD 406 (sensitization) | (Guinea pig) not sensitizing |
| | OECD 474 (In vivo - Micro nucleous test) | (Rat) negative |

On the skin:

Based on available data, the classification criteria are not met.

On the eye:

Based on available data, the classification criteria are not met.

Sensitization:

Based on available data, the classification criteria are not met.

Germ cell mutagenicity:

Based on available data, the classification criteria are not met.

Carcinogenicity:

Based on available data, the classification criteria are not met.

Reproductive toxicity:

Based on available data, the classification criteria are not met.

Specific target organ toxicity - single exposure (STOT SE):

Based on available data, the classification criteria are not met.

Specific target organ toxicity - repeated exposure (STOT RE):

Based on available data, the classification criteria are not met.

Aspiration hazard:

Based on available data, the classification criteria are not met.

Practical experience

Persistence and degradability

A part of the components is biodegradable.

Bioaccumulative potential

No further relevant information available.

Mobility in soil

No further relevant information available.

Results of PBT and vPvB assessment**PBT:** Not applicable.**vPvB:** Not applicable.**Endocrine disrupting properties**

The product does not contain substances with endocrine disrupting properties.

Other adverse effects

No further relevant information available.

Literature

No further relevant information available.

Ecotoxicological effects:

No further relevant information available.

Behaviour in sewage processing plants:

No further relevant information available.

Additional ecological information:**General notes:**

Water hazard class 1 (German Regulation) (Self-assessment): slightly hazardous for water

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

SECTION 13: Disposal considerations**Waste treatment methods****Recommendation:**

Must not be disposed together with household garbage. Do not allow product to reach sewage system.

Dispose of contents/container in accordance with local/regional/national/international regulations.
